StricklenSolutions.com

**Standard courses** include Levels 1 - 4 of Excel, Access, PowerPoint, Word, and Outlook.

**Microsoft® certified courseware** is used in all standard courses. Each student receives one class booklet and example files.

**Intro to VBA Courses** are our *signature* courses. If you're an intermediate to advanced Excel or Access user looking to take your skills to the next level, this is the course for you. On-site or online private VBA courses are available in **two-** or **three-**day formats and can be customized.

**Project Workshops** are intensive courses focused on specific topics. They are typically tailored for a specific staff or project in a given industry.

**Custom Courses** can be designed upon request. Lessons from any of our standard courses can be mixed and matched to create the perfect course for your group. We can even create custom content tailored for your group.

**Free Email Support** for 30 days for each student after every course.
